## Medical Marijuana Consumer Cooperatives Status Update

June 3, 2014

Effective June 3, 2014, the Medical Marijuana Consumer Cooperatives (MMCC) identified in the link below have completed Step 3 of the application process. These applications are now being reviewed by City staff for compliance with all development regulations.

Please note: The order of applications in each council district, as indicated on the map, does not guarantee the order in which applications will be approved nor does it guarantee the receipt of a medical marijuana conditional use permit.
